2019 Chadwick Summer Programs

Whether you're looking for academic enrichment, artistic inspiration, athletic instruction, or a fun day-camp experience for your child filled with laughter and friends, we are sure you'll find what you're looking for at Chadwick School. Our lush, beautiful campus, top-level facilities, and outstanding staff provide a stimulating and safe environment where all children have the opportunity to grow and discover. With an amazing variety of courses and programs, there is something for every child at Chadwick Summer Programs.

Our enthusiastic team of instructors and course leaders is looking forward to giving your children a fun and memorable experience at Chadwick School this summer.

It's going to be an amazing summer and we look forward to sharing it with you!

Chadwick Minis Overview

The Chadwick Minis program is designed to give 4- and 5-year-olds a positive early educational experience in relaxed and pleasant surroundings. We aim to create a stimulating, diverse, and supportive learning environment where students interact with mutual respect and trust. Our one-to-five teacher-to-student ratio facilitates a variety of enriching activities.

Half Day

Hours: 9:00 a.m. – Noon

Fee: \$1,500.⁰⁰

Full Day

Hours: 9:00 a.m. – 3:00 p.m.

Fee: \$2,020.⁰⁰

NOTES FOR PARENTS

We offer groups and classes divided by age groups. Simply indicate your age group when you register. Please provide a healthy snack and drink for your child every day. Water is always available in the Chadwick Minis classroom. Fees are for the full 5-week summer session.

Chadwick Minis Morning Activities

Our mornings begin with a “welcome,” followed by calendar, songs, and stories. The children then cycle through the following camp activities in small groups.

Centers

Centers are theme-related, hands-on activities led by a credentialed teacher or an assistant teacher. Indoor centers include structured play, science exploration, math games, and reading and writing skill development. Outdoor centers on the playground encourage fun while developing motor skills through games, rhythm and movement.

Art

Art lessons in our studio introduce students to basic art media such as paint, watercolor, and pastels, using a wide variety of materials. Projects allow for creative expression and growth.

Music

Music class fosters children's love for music by inviting Chadwick Minis to sing songs, play simple instruments, and participate in dance and movement activities.

Pool

Chadwick Minis enjoy swim time two to three times a week. Our goal is to help children feel safe and have fun in the water. Swim instructors give all children a swim test to determine their level of comfort in the water and then customize instruction based on their needs. The adult-to-student ratio is one-to-two, and lifeguards monitor the pool at all swim times. [All lifeguards and swim instructors are Red Cross certified, which includes lifesaving, CPR, and first aid.]

Chadwick Minis Afternoon Activities

The following activities apply only to those students enrolled in the full-day program.

Lunch

Children eat lunch together with the Chadwick Minis staff. Please provide a healthy lunch and drink for your child or pre-order a lunch through the school's dining services. For more information about the dining program, see the "General Information" section.

Story/Rest Time

Time to take a break! During this quiet part of the afternoon children are encouraged to read, do puzzles, play quiet games and enjoy a little "down time." An afternoon snack is provided.

Group Time

Students will enjoy a different activity every afternoon of the week. Please download the schedule to learn more.

Camp Chadwick Overview [Afternoon Program Noon – 3:00 p.m.]

Welcome to Camp Chadwick, where learning, exercising, and fun are integrated to provide an optimal summer experience! Classes such as swimming, art, games, computer lab, gym, and field sports teach campers to be creative, work together, and enjoy being children. It's going to be another fantastic summer here at Camp Chadwick!

Half Day

Hours: Noon – 3:00 p.m.

Fee: \$770.⁰⁰

NOTES FOR PARENTS

Students may participate in Camp Chadwick as a stand-alone program or combine it with the morning sessions of Chadwick Prep or Hilltop Sports. Fees are for the full 5-week summer session.

Camp Chadwick Activities

Art

Campers explore art through thematic units such as the ocean, the universe and patriotism. A variety of materials and techniques allow campers to express themselves while building lasting cognitive and technical skills. Campers have fun completing a new project nearly every day. Our experienced art instructor enhances students' creativity through problem solving, spatial thinking and self-initiative.

Swimming

Chadwick's Aquatics Program offers children a range of basic swim skills, while adhering to strict safety rules. An initial assessment matches each camper to his/her appropriate swim level. Students also enjoy supervised "free swim" time in the pool two days each week. [All lifeguards and swim instructors are Red Cross certified, which includes lifesaving, CPR, and first aid.]

Computer Lab

Campers navigate both software and web-based applications in one of Chadwick's several computer labs. The programs explored include Microsoft Word, KidPix and Pixie, Google Earth, Math Blaster, Mavis Beacon Typing Software, and many more.

Games

Game on! Campers use logic, reasoning, social skills, and critical thinking to play strategic board games. They will discover how game developers create board games in order to design their very own. Campers choose a theme, establish rules, directions and even design a board and game pieces. Then, we play!

Sports

Campers participate in both gym and field sports. In the gym campers play basketball, handball, jump rope, and more.

Chadwick Prep Overview [Morning Programs 9:00 – Noon]

Chadwick Prep's small classes led by dedicated teachers and qualified teaching assistants provide the perfect opportunity for your children to gain confidence as they prepare themselves for the upcoming school year. The classes offered through Chadwick Prep take advantage of all that Chadwick School has to offer, including the library, iPad cart, and science lab. From language arts to math and science to global languages, Chadwick Prep has something for everyone!

One Class

Fee: \$430.⁰⁰

Two Classes

Fee: \$860.⁰⁰

Three Classes

Fee: \$1,290.⁰⁰

NOTES FOR PARENTS

Prep Open House – Thursday, July 25 9:00 a.m. – 10:00 a.m.

Children ages 6-9 may combine Chadwick Prep classes with afternoon Camp Chadwick or Hilltop Sports.

Children ages 9-11 may combine Chadwick Prep classes with those offered in Arts Unlimited or Hilltop Sports. Fees are for the full 5-week summer session.

Grade levels are based on a child's grade he/she is entering in fall.

Chadwick Prep Classes

LANGUAGE ARTS

Lions, Tigers, and Bears [GRADE 1]

Students will have a “roaring” good time in this course, based on animal themes. This course combines reading, writing, and art to develop students’ confidence. Geared toward beginning and middle readers, students will read in small groups. Regular visits to the Village library and iPad use provide opportunities for individual projects.

Creative Writing [GRADES 1 & 2]

Learning to write is one of the most important skills children can develop. Please join us as we learn to express ourselves through story writing. Students will write short non-fiction stories while exploring writing devices such as the use of synonyms, alliteration, dialogue, and descriptive language.

Get Your Motor Running [GRADE 2]

Vroom, vroom! Students will strengthen their fine motor skills and reading in this class. Crafting stories in Writer’s Workshop will strengthen students’ writing and editing skills. Reading activities will focus on expanding vocabulary and comprehension. Students will be assessed during the first week and leveled accordingly.

The Bakery [GRADES 2 & 3]

This thematic class is designed to help students understand and integrate the complexities of starting and running a bakery business. This course will integrate language arts, science, math, and visual arts skills. Reading and writing are key components in this class. The culminating activity will be a bake sale on campus with the proceeds donated to a charity of the class’ choosing.

Into the Blue: All About the Ocean

[GRADES 3 & 4]

Have you ever wondered what lurks below the surface of our oceans? Uncover the great mysteries of the ocean in this class. Students will explore different ocean environments and the creatures that live there. Through a mix of science and language arts, students will learn about the environment that occupies most of our planet.

Rainforest Rally

[GRADES 3 & 4]

Discover the many plants and animals that call the rainforest their home. Students will read and write short stories and reports, strengthening research and language skills. Library and Internet searches will provide plenty of ideas. Students will gain knowledge about the rainforest and share that knowledge with one another. Each child will benefit from the warm and supportive environment.

Smartworks

[GRADE 4]

This class will support students who need an extra boost in reading comprehension and inferential meaning in order to prepare them for the next grade level. Process-writing and short story reading is the basis for this class. While learning mechanics, form, and style, students will discover the joy of writing.

Prep Gazette

[GRADES 4 & 5]

Students combine creativity, interview skills, and language arts skills to create an original newspaper for summer school. Working collaboratively, students write articles, interview people and take photos, documenting their work in the newspaper for summer school. In so doing, students learn to organize creative ideas into informative and editorial writings, as well as practice and develop public speaking skills.

Reading & Study Skills [GRADES 4 & 5]

This course is designed to help students improve the way they read and study academic material. Maximizing students' abilities to comprehend and retain what they read is emphasized, as are note- and test-taking skills. Students learn a variety of techniques that they will be able to utilize in their classes next fall.

Research Skills [GRADES 4 & 5]

Learning to gather information, organizing one's thoughts, and presenting findings effectively are critical life skills. Students will practice their research, writing, and speaking skills through fun-filled projects such as book talks, speeches, and debates.

MATH

One Shoe, Two Shoe [GRADE 1]

Students will dazzle their friends, thrill their parents, and amaze their teachers next year when they return to class with a whole new "bag of tricks" for solving math problems. Using manipulatives, games, and a variety of "tricks," students will review addition and subtraction of one and two digit numbers, count money, tell time, and explore geometry.

Zany, Brainy Math [GRADE 2]

In this hands-on class, students learn about problem solving, estimating, critical thinking, and logic through the use of hands-on activities and strategy games. Additionally, students will strengthen their addition and subtraction skills with two and three digit numbers in several fun-filled ways. They will create art projects using simple geometry, fractions, and arrays. Writing will be emphasized as students learn problem-solving strategies.

[Download Schedule](#) 

Monster Math

[GRADE 3]

Using manipulatives, games, iPads, and creativity, students will review addition, subtraction, multiplication, and division concepts. Number theory, geometry, and problem-solving projects will help students stretch their minds.

Math Shop

[GRADE 4]

While using manipulatives, students will develop their math problem-solving abilities. Through both individual and cooperative small group strategies, this course presents various problem situations that will lead them to use multiple methods and provide opportunities for intuitive and inductive reasoning, mathematical discovery, creativity, and originality.

Math Magicians

[GRADES 4 & 5]

Students will review decimals, fractions, percentages, geometry, area, perimeter, graphs, and basic computation. Creative projects allow students to apply their knowledge in new ways. A variety of math games and manipulatives will be used to reinforce basic skills, with an emphasis on problem solving and communicating mathematical thinking.

Wall Street Wizards

[GRADE 5]

In this class, students learn the basics of investments, money managing, and money making! What is risk and return? What are the differences between a stock, bond, and mutual fund? What are the 'markets'? All the answers will be learned in this financially-focused class!

SCIENCE

Mad Scientists

[GRADES 1 & 2]

Chemistry exists in our everyday lives! This hands-on class will include growing crystals, doing lab experiments, and creating tasty dishes. Inventive projects and science-based art will engage young learners.

Creepy Crawlies

[GRADES 1 & 2]

Bring your nets and magnifying glasses on this tour of creepy crawlies around us. Students will plant a garden and explore our campus and canyon. Scientific theory, observation, recording data, making hypotheses, and testing them will keep young entomologists busy.

Whodunnit? Introduction to Forensic Science

[GRADES 2 & 3, 4 & 5]

Calling all future Crime Scene Investigators! In this class, students will use science, reasoning, and problem solving to investigate how law enforcement professionals solve crimes and analyze evidence. Using tools and methods like those of professionals, students will collect evidence in order to try and solve mysteries and "crimes." This is a great introduction to the science of forensics, and learning how biology, chemistry, and physics play a major role in the investigation!

Gizmos, Gadgets & Goop

[GRADES 3 & 4]

Future scientists will perform spectacular experiments and practice recording and reflecting on their observations in this hands-on class. A variety of science-based activities will keep these young scientists busy. Students will explore chemistry and natural science, as well as concocting lotions, potions, and goop!

Ingenious Inventors [GRADES 4 & 5]

The exciting world of experiments begins with students designing their own collection or invention. The inventive projects and hands-on experiences engage these learners as they develop a model, state its purpose, and create advertising to sell it. Young scientists will keep a log of their spectacular work. Perfect for innovative minds!

3, 2, 1 ... Blast Off! [GRADE 5]

Rockets are remarkable creations of human ingenuity. Have you ever wondered what it is that makes a rocket fly? Students in this course will demonstrate Newton's Laws of Motion, construct a rocket-propelled vehicle, design bottle rockets, and experiment with many other fun and interesting things. How far will your rocket fly?

Einstein's Workshop [GRADE 5]

Are you fascinated with science? This hands-on course involves physical, biological, and chemical projects in our fully-equipped Science Lab. Children will be guided as they build electronic gadgets, conduct experiments, and practice the scientific method. Findings will be shared in a variety of ways including graphs, posters, and journaling.

ART/MISCELLANEOUS

All Around the World

[GRADES 1 & 2]

Each week, students will travel to a different continent and learn about the many cultures through music, art, language, and food. Popular sports, important people and places, and interesting facts will also be explored. What a wonderful way to encourage children to discover the world around them!

Mindfulness Matters

[GRADES 1, 2 & 3]

Children of all ages can benefit from mindfulness, the simple practice of bringing a gentle, accepting attitude to the present moment. In addition to the physical benefits, the practice of yoga can help improve a child's ability to focus, concentrate, and listen. It enhances their self-confidence and is a gentle introduction to self-discipline. Children will explore whimsical and traditional yoga poses while also practicing mindfulness activities like tuning in to all five senses and becoming more aware of the world around them.

Artistic Fingers

[GRADES 1 & 2]

Grab a paintbrush and go! Students will use a range of media including watercolor, clay, and other elements to express themselves as artists. A curious and creative mind is a must!

Let's Get Three-Dimensional!

[GRADES 3 & 4]

Students will learn to see things from a new dimension. Every project is 100% hands-on as we learn by building. Materials will include clay, paper, cardboard, foam, and more. Imagination meets critical thinking in this course for the creative mind.

Tasty Treats

[GRADES 2 & 3]

Who says that "yummy" and "good for you" can't describe the same snack?! With all of the choices in our refrigerators and pantries these days (not to mention in stores and restaurants!), it is becoming ever more important to help our kids make smart choices about the foods they eat. This course will teach students not only how to make these choices, but also how to make several easy, delicious, and nutritious treats themselves.

COMPUTER

Code Crashers [GRADES 2 & 3]

Are you interested in coding? Students in this class learn the basics of coding, a beginning step in preparing for a technology-fueled future. Coding is an invaluable 21st-century skill. Even kids who don't go on to become computer scientists will benefit from learning to speak and understand the language of coding.

Keyboard Wizards [GRADES 3, 4 & 5]

Students become competent at keyboarding with daily practice in this class. Students will increase speed and accuracy while monitoring their progress. Additionally, students will use their skills to produce posters, graphs, and other projects.

Lego Robotix [GRADES 4 & 5]

Join the Lego Robotix tech team and create robots that you control. Throughout the class, you will learn how machines work and have the opportunity to design your own robots. Using the computer, you can create a program that instructs your robot to move. We will explore basic scientific principles, mathematical concepts and procedures, and introductory programming skills.

Gamestoppers & Animators [GRADES 4 & 5]

In this class students learn Scratch, a visual computer programming language for kids that makes it easy to create and share animations and games of all kinds. They will explore key math and computational ideas using creativity, logic, and collaboration skills. Students well-versed in Scratch can independently explore other languages like Javascript and Python.

GLOBAL LANGUAGE

Introduction to Sign Language

[GRADES 3, 4 & 5]

In this class students will learn the international language of sign language. Learning the alphabet will begin the process because it is the center of the language and allows the students to communicate by "spelling" everything with their fingers. Each week, they will build upon their vocabulary by learning new words based around different themes.

Spanish Club **[GRADES 1, 2, 3, 4 & 5]**

This class is designed to provide a love of foreign language learning. Students will sing songs, play games, and experience Spanish culture through arts and crafts activities. Students are provided a basic introduction to Spanish vocabulary and grammar using contexts that are familiar to them. A willingness to have fun is all that is needed to participate in this class.

ENRICHMENT COURSES (Enrichment Courses meet from 9:00 a.m. – 9:50 a.m.)

Computer Coding [GRADES 6 & 7]

In this age of time, computer programming is the “it” thing to do. Facebook has an app. Twitter has an app. iMovie has an app. Those apps and more were all created by someone who learned computer programming. Scratch is a great way to learn the fundamental concepts of programming languages. In this class, you will explore how to create games, animations, stories, and art using a computer learning tool that teaches programming skills.

Debate [GRADES 6, 7, 8 & 9]

Learn the art of verbal combat! Students will learn how to construct persuasive positions, defend against and attack each other’s arguments, and crossexamine effectively. Students will debate a variety of age- and experienceappropriate topics, form teams, and pit themselves against their peers. Debate topics may include: school uniforms, private/public school, and school food. By the end of the course, students will not only be comfortable speaking at the podium, but also will have a good idea of how to structure a thoughtful argument, how to refute a statement you don’t agree with, and how to get that last word in.

ENRICHMENT COURSES (Enrichment Courses meet from 9:00 a.m. – 9:50 a.m.)

World of Web Design

[GRADES 8, 9 & 10]

The world of software design is booming! In this beginning course, students will cover the software creation process. Students will learn the object of oriented design principles and the fundamentals of programming as they plan their own projects. Java will be the primary language to teach and understand data types and methods. Students will work individually and in small groups to explore new concepts. No previous programming experience is required.

Public Speaking [GRADES 7, 8, 9 & 10]

In this class, students will learn to express themselves with greater confidence and clarity in a fun summer environment. The course is designed to help develop critical-thinking skills. Students will have the opportunity to present both impromptu and prepared speeches on topics of their choosing. Speeches include biographical introductions and informative how explanations. Students will also become familiar with the basics of good public speaking by viewing and critiquing famous speeches, old and current.

ENRICHMENT COURSES (Enrichment Courses meet from 9:00 a.m. – 9:50 a.m.)

Robotics VEX-IQ [GRADES 6, 7, & 8]

Using robots, students will cover the fundamentals of problem solving, program design, algorithms and programming using a high-level language. A robot is an embedded system of software and hardware. Programming and building robots applies science, technology, engineering and math concepts. This course introduces the fundamental concepts of programming. *This course also has the option to meet Period 2 (10:00 a.m. – 10:50 a.m.) and Period 3 (11:00 a.m. – 11:50 a.m.).

Study Skills [GRADES 7, 8 & 9]

The study skills course, students develop more effective systems of organization, to improved reading comprehension, and to listen critically. Students learn how to use their stronger skills to boost their weaker skills and how to do group work effectively. Students will also study the different forms of note-taking and analysis as well as practice how to study for assessments

Intro to Financial Market Trading

[GRADES 7, 8, 9 & 10]

This course will exam the financial markets particularly the FOREX market on how financial traders create wealth trading using the FOREX Market. Students will begin by learning technical analysis, trend, Fibonacci Sequences, resistance, gaps, support and supply and demand. They will learn how the news affects the markets as well. Students will be using a demo account and will be making live trades in the class. In the demo account students will understand how to use Japanese candlesticks and determine if there is a bull or bear market. In addition, students will learn financial terminology. Students will also learn the most valuable lessons which are risk-to-reward ratio and money management.

ACADEMIC COURSES (Meet from 10:00 a.m. – 12:00 p.m. or 1:00 p.m. – 3:00 p.m.)

English Essentials I [GRADES 6 & 7]

English Essentials I is designed to enhance fundamental reading and writing skills through the close reading of short stories and poetry. Students will complete text-based grammar exercises. The writing workshop will focus on the body paragraph as the basic unit of the analytical essay. While grammar, reading, and composition remain at the heart of the course, students will also learn to develop original arguments based on their interpretive discoveries.

English Essentials II

[GRADES 8, 9 & 10]

This course reviews the fundamentals of reading, composition, and grammar basics. Whereas English Essentials I focuses on fundamental writing concepts, this class places greater focus on the multi-paragraph analytical essay. All writing assignments, however, will encourage students to develop their critical reading skills while close-reading short stories and poetry. Students will be encouraged

ACADEMIC COURSES (Meet from 10:00 a.m – 12:00 p.m. or 1:00 p.m. – 3:00 p.m.)

Pre-Algebra

[GRADES 6 & 7]

This course will review and complete the study of whole numbers, decimals and fractions. Concepts of algebra, discrete mathematics, functions and patterns, geometry, logic, numbers, probability and statistics are included. Attention is given to manipulate, proportional relationships, multiple representations, patterns and generalizations, real-world applications and problem solving strategies.

Readiness for Algebra I

[GRADES 7, 8 & 9]

This course is designed for anyone getting ready to enter an algebra course. Students will work on big ideas of algebraic thinking that students can develop before they enter algebra. The ideas are Representation, Proportional Reasoning, Variable, Function, and Inductive/Deductive Reasoning. The concepts will be introduced through classroom activities, partner projects, such as poster creation and presentation. Students will also review and strengthen pre-algebra skills as they study the big ideas.

ACADEMIC COURSES (Meet from 10:00 a.m – 12:00 p.m. or 1:00 p.m. – 3:00 p.m.)

Readiness for Algebra II

[GRADES 8, 9 & 10]

This course will review the Algebra I skills essential to one's success in subsequent mathematics courses. Topics will include: The Real Number System and its properties, Solving Linear Equations, Solving Multi-step and Compound Linear Inequalities, Solving Quadratic Equations by Factoring, Solving Systems of Equations, Laws of Exponents, Monomial and Polynomial Expressions, Rational Expressions, Intro to Functions, Graphing Problem Solving Approaches, and Numeracy.

Readiness for Geometry

[GRADES 9, 10 & 11]

This class covers almost a full year of high school geometry. Students will concentrate on the study of Euclidean Geometry while maintaining and enhancing algebraic skills. Students will learn the ideas, concepts, and theorems of this branch of mathematics as they were developed by the early mathematicians. Students will also extend their reasoning skills by forming geometric arguments, and will learn how to apply these principles to solve problems in various situations.

Renewable Energy Engineering

[GRADES 6, 7 & 8]

The Renewable Energy Engineering summer course will provide students with an opportunity to design, conduct, communicate about, and evaluate scientific investigations in one of the hottest engineering fields - alternative and renewable energy sources! Students will learn the A-Zs of renewable energy - from algae fuels to zero emissions vehicles - while working hands-on with fundamental energy design challenges. At the end of the course, each student will walk away with fully-functional alternative energy science models and the skills to change the world! *This course only meets in the AM academic course period (10:00a.m. – 12:00p.m.).

Chadwick Academy Overview

Chadwick Academy Overview

New to Chadwick Summer Programs is Chadwick Academy, serving students ages 14 through 16+ with experiential education opportunities both in the classroom and in the surrounding community. Courses will run on a week to week basis. Course descriptions, running dates and times, and costs will be available on the Chadwick Summer Programs website in early February. Students will be able to register for these courses starting on March 1st, 2019. Please see www.chadwickschool.org/summer for more details. You may also contact Jake Williamson, Chadwick Academy Director for further information on the program.

Arts Unlimited Overview

Arts Unlimited was founded more than 30 years ago to foster arts and creativity during summer vacation from school. From the beginning, we have been highly committed to the belief that each child has artistic talents. Nurtured by high-quality mentoring, coaching and teaching, young people can reach their amazing potential. Offerings include instrumental music, digital photography, dance, drawing, painting, drama, singing, writing, sculpting, creative cooking, textile arts, physical fitness and games.

Full Day / 5 Classes

Hours: 9:00 a.m. – 3:00 p.m.
Fee: \$2,150.⁰⁰

Half Day AM / 3 Classes

Hours: 9:00 a.m. – Noon
Fee: \$1,290.⁰⁰

Half Day PM / 2 Classes

Hours: 1:05 p.m. – 3:00 p.m.
Fee: \$860.⁰⁰

Single Class / Add-On

Fee: \$430.⁰⁰

NOTES FOR PARENTS

Fees are for the full 5-week summer session.

Students may participate in Arts Unlimited as a stand-alone program or combine it with Chadwick Prep, Prep Plus or Hilltop Sports.

Arts Unlimited

AU Band

[AGES 9-14]

Any student with basic experience with a traditional band or orchestra instruments (wind, percussion, or strings) is welcome in the AU Band. The band will perform at various lunch festivals throughout AU and perform at the AU BBQ on July 25 for Open House. Please note: Students must provide their own instruments. This is not an instruction class: students must have basic experience in their instrument.

AU Weekly

[AGES 9-14]

If students like to write, interview people, and take pictures, this is the class for them. Budding journalists get hands-on experience as the news crew that publishes the Arts Unlimited weekly newspaper.

Cartooning

[AGES 9-14]

From idea, to outline, to storyboard, to final drawing in panels, students learn the basics of this art form—inventing and creating their own cartoon character. This class deals with printed cartoons, not animation. Students work will be published in AU Weekly, the student newspaper.

Ceramics I

[AGES 9-14]

This class teaches the basics of hand-building methods of clay construction. Pieces will be glazed and fired once students have built and decorated them. Work will be displayed at the Open House Art Exhibit on July 25.

Ceramics 2

[AGES 11-14]

This class is for students who are at least 11 years old by the beginning of the program and who have had past experience hand building with clay. Wheel basics will be taught as well as decorative methods used on vessels. Limit: 10 students. Work will be displayed at the Open House Art Exhibit on July 25.

Chess

[AGES 9-14]

In this instruction class students will learn this game of strategy or advance their expertise with the one and only "Chessman." All levels welcomed and challenged.

Creative Crafts

[AGES 9-14]

For the creative camper who enjoys crafting of all kinds! Daily projects and activities as well as week-based projects will be crafted. Projects include (but are not limited to): 3D original paintings, flower pot creations, friendship bracelets, origami, felt masks, and more! Work will be displayed at the Open House Art Exhibit on Thursday, July 25.

Creative Writing 1

[AGES 9-11]

This class will feature the beginning techniques and mechanics of creative writing. Poetry will be presented for those who desire to explore this genre of writing. Students will do writing "warm-ups," construct stories, and keep journals of their work. There will be opportunities for oral presentations to be shared with the class, as well as at Open House on July 25.

Creative Writing 2

[AGES 12-14]

This class will feature the intermediate techniques and mechanics of creative writing. Poetry will be presented for those who desire to explore this genre of writing. Students will do writing "warm-ups," construct stories, and keep journals of their work. There will be opportunities for oral presentations to be shared with the class, as well as at Open House on July 25.

Digital Filmmaking I [AGES 9-11]

Have you ever wanted to make a movie? Here is your chance. Come learn the art of beginning storytelling through film. Script writing, directing, and editing will be covered at the basic level. Students will learn how to use modern cinematic tools to express personal stories. Each student will end the course with a copy of their own personal film. ***Students must provide their own equipment (iPhone or iPad).*** Work will be on display at the Open House Art Exhibit on July 25.

Digital Filmmaking 2 [AGES 12-14]

Have you ever wanted to make a movie? Here is your chance. Come learn the art of storytelling through film. Script writing, directing, and editing will be covered at the basic level. Students will learn how to use modern cinematic tools to

express personal stories. Each student will end the course with a copy of their own personal film. ***Students must provide their own equipment (iPhone or iPad).*** Note: This level requires previous experience in filmmaking. Work will be on display at the Open House Art Exhibit on July 25.

Drawing [AGES 9-14]

Drawing is the foundation upon which all visual arts are based. All types of drawing will be presented including doodling as a warm-up. Doodling has been found to have a positive benefit on concentration. Pencil and paper will be the main media but colored pencils, markers, ink, and other drawing materials, as well as a variety of papers, will be available. Work will be on display at the Open House Art Exhibit on July 25.

Fashion Design

[AGES 9-14]

In this course, campers of all ages will have the opportunity to up-cycle, customize, and embellish various clothing items to make them unique and their own! They will all begin with clothing items (provided by each student, from home and thrift shops) including t-shirts, jean jackets, and pants that they will use as their blank canvases for their own clothing collection. Not only will they learn how to customize their closet, but they will practice sketching out their designs, creating their own brand, and will show off their designs at the end of camp in a photoshoot and runway show where they wear their own designs at the Open House Performances on July 25.

Fencing I

[AGES 9-11]

The basic beginning techniques of fencing are taught to those new to this storied art. Students will offer demonstrations at AU Open House, July 25. Equipment will be provided.

Fencing 2

[AGES 12-14]

This class expands upon skills acquired in Fencing I. Students have the opportunity to fence with classmates. Participants will offer demonstrations at AU Open House, July 25. Please note: *This class is for students who have completed Fencing I or the equivalent. If it is determined that a student does not have adequate prior experience, he or she will be reassigned (space allowing). Equipment will be provided.*

Fused Glass I

[AGES 9-11]

This beginning class explores the increasingly popular art that uses heat - in a glass kiln - to form glass into a variety of ornaments such as tiles, flowers, jewelry and animals. Work will be on display at the Open House Art Exhibit on July 25.

Fused Glass 2

[AGES 12-14]

This intermediate class extends the skills previously presented in the beginning level. The increasingly popular art uses heat - in a glass kiln - to form glass into a variety of ornaments such as tiles, flowers, jewelry and animals. This level requires previous experience. Work will be on display at the Open House Art Exhibit on July 25.

Game Factory

[AGES 9-14]

There is an art to playing any sport! This class features informal large group lawn games such as frisbee, capture the flag, soccer, basketball and kickball. Students will also build and construct their own fun equipment to use in class.

Hip-Hop Dance

[AGES 9-14]

Learn all of the latest dance moves set to Hip-Hop music. Dancers will be able to extend their individual style as well as learn to dance within a group. All ages welcome. Students will perform at Open House on July 25.

Improv

[AGES 9-14]

Theater games, scene performances, and character development are part of the fun of improv. Students learn the art of theatrical expression and the acting tools used to achieve it in this workshop class. All ages welcome. Students will present a performance as part of Open House on July 25.

Junior Chefs

[AGES 9-14]

Student chefs will learn cooking basics, preparing everything from appetizers and entrees to desserts. A variety of recipes will be prepared and sampled, featuring fresh and healthy food. Within the classes, students will be divided into cohort groups depending on their food prep experience. **Please note: We are unable to accommodate food allergies in this class.** The junior chefs will publish a cookbook of recipes used in the class and serve selected food at Open House on July 25. There is an additional materials fee of \$40 for this course.

Jewelry

[AGES 9-14]

Fill your jewelry box with wearable art that you have made! Create earrings, bracelets, necklaces, rings, and tiaras while learning how to use professional tools and techniques in a variety of ways. Make paper beads, emboss and stamp on metal and leather, hand cut copper pendants and charms, wire wrap personal objects, design elegant beaded tassels, and crown yourself with a unique tiara. Work will be on display at the Open House Art Exhibit on July 25.

Junior Yoga

[AGES 9-14]

This class is designed to increase a feeling of well-being in students. A body-mind connection is achieved through gentle stretches, positions, and breathing techniques that have been used for thousands of years. No previous experience required.

Mosaic Art

[AGES 9-14]

Learn this ancient art and plan on making modern pieces! Using tiles and glass, students will create decorative pieces for the garden and home. Students will work with all of the traditional materials used in this unique art form. Work will be on display at the Open House Art Exhibit on July 25.

Musical Production

[AGES 9-14]

AU campers are invited to come learn song, dance, and acting as AU 2019 presents "Annie, Jr." The performance will be on Wednesday, July 24 at 7:00 p.m. The play will be collaborative, featuring the unique talents of each student. The directors, producer, and choreographer will cast the show after the first day of class.

All cast members, and their families, must agree, in principle, to attend each class period throughout the five weeks, except in cases of grave illness. A video of the show will be filmed and made available as a download. There is an additional costume fee of \$40 for this course.

Painting

[AGES 9-14]

This art class is all about painting on canvas with acrylic paints. Students express themselves through creations based on instructions in style, color, and composition. The class has two art instructors who are able to cover all levels of art making and provide one-on-one personal instruction as needed. Work will be on display at the Open House Art Exhibit on July 25.

Sing Out I

[AGES 9-11]

This class will feature vocal technique instruction by using daily group exercises as well as personal coaching. Students will prepare and present vocals, with live accompaniment, for festivals and

the Open House Performances in the final week of camp. Microphone techniques, stage presence, and age-appropriate interpretation of materials will be taught.

Sing Out 2

[AGES 12-14]

This class will feature vocal technique instruction by using daily group exercises as well as personal coaching. Students will prepare and present vocals, with live accompaniment, for festivals and the Open House Performances in the final week of camp. Microphone techniques, stage presence, and age-appropriate interpretation of materials will be taught.

Sweet Sound of Steel [AGES 9-14]

For the musically adventurous and culturally curious campers! Learn to play the Steelpan, or "Pan" for short, the national instrument of Trinidad & Tobago. Extremely fun to play, and easy to get started, this low-bar/ high-ceiling, chromatic, orchestral range family of instruments is a delightful experience for the musical novice and veteran alike. The class will cover the fundamentals of music theory and literacy for those who need it while offering the experienced musician a chance to explore and develop their musicality. Campers will learn about various musical styles and genres from the Caribbean as well as the fascinating history of the instrument and the people and culture that created it, culminating with a group performance/ presentation at the Open House Art Exhibit on Thursday, July 25th.

Swimming [AGES 9-14]

Swimmers learn water safety and increase water skills while also enjoying pool games and free swims. Please note: **Beginning-level water safety skills (ability to dog-paddle) are required for enrollment.** This class does not teach swim instruction. [All lifeguards are Red Cross certified, which includes lifesaving, CPR, and first aid.]

Yarn Magic [AGES 9-14]

Students new to working with yarn will learn the basics of knitting and crocheting while those with experience can improve their skills. All will create individual art pieces. Thread art (embroidery) will be available as an option for those students who wish to add that skill. Work will be displayed at the Open House Art Exhibit on Thursday, July 25.

General Information

Snack Break Daily 10:50 – 11:10 A.M.

Bring a snack from home or purchase one from the kitchen window.

Lunch Daily NOON – 12:30 P.M.

Campers may bring lunches from home (refrigeration provided), pre-order a lunch through the school's dining services, or purchase snacks and food from the cafeteria window (see "General Information" section for lunch specifics).

Daily Festival 12:30 – 1:00 P.M.

On Tuesdays and Thursdays, we offer a free choice festival with a variety of offerings. Music jams, group competitions, Ping-Pong, crafts or just hanging out with friends on the lawn provides our campers with the opportunity to get to know each other. On Mondays, Wednesdays and Fridays, there are performances by different classes in the Laverty Auditorium. We coordinate our "crazy dress days" with the other camps on the campus. **Please note: Half-day morning students may buy or bring**

lunch and stay for Festival. Pickup at 1:05 p.m. will be in front of the AU office, Middle School Building, Room 221.

Camper Groups

In order to facilitate group activities and bonding, foster friendships, mentor campers, and organize the larger group into smaller units, campers are grouped in equal-sized numbers with a counselor as group leader. Familiarity games and "getting-to-know-you" activities aid children who do not have friends at the camp, find new situations intimidating, or seek to make brand-new friends for the summer. We strive to match campers and counselors, dividing them evenly into mixed gender and age groups, where they will have opportunities to learn about each other and have fun. Campers meet in the amphitheater at the beginning of each day with their counselor/group leader. There are competitions and group activities throughout the five weeks. Lunches from home are collected into group numbered baskets for distribution at lunchtime. **Please note: We do not take requests for groups.**

Hilltop Sports

Age 6 to 14 (as of Fall, 2019)

[Hilltop Sports Overview](#)

[Hilltop Sports Camp](#)

Hilltop Sports Overview

Hilltop Sports offers campers the opportunity to improve their skills in a variety of sports in a positive and fun environment. The morning session will be a dedicated basketball camp, played each day in the climate-controlled gym. The afternoon camp rotates between soccer, basketball, and baseball/softball.

Hilltop Sports Day Camp

Session 1: Basketball Camp – 9:00 a.m. – Noon

Session 2: Soccer, Basketball, and Baseball/Softball – Noon – 3:00 p.m.

Fees:

Weekly Rate \$215.⁰⁰/session

All 5 weeks \$1,075.⁰⁰/session

NOTES FOR PARENTS

Boys and girls are welcome in all sports. Campers must provide their own appropriate attire for each sport, including cleats, gym appropriate shoes, and on some occasions a swimsuit, towel, and sunscreen.

Stephen Norberg

Hilltop Sports Director

[Hilltop Sports Overview](#)

[Hilltop Sports Camp](#)

Hilltop Sports

Session 1 – Basketball Camp

9:00 a.m. – Noon

The morning session (9:00 a.m. – Noon) will be focused only on basketball. It will include skills and drills along with games. We will be in the Chadwick gym the entire time which is a first-class facility with climate control to keep it cool during the summer months. We will have former college basketball players as guest speakers throughout the summer. This will allow campers the opportunity to hear what it takes to compete at the college level. All skill levels are welcome.

Session 2 – Soccer, Basketball, and Baseball/Softball

Noon – 3:00 p.m.

The afternoon session (Noon – 3:00 p.m.) will feature soccer, basketball, and baseball/softball. This will allow for campers to experience a small taste of all the sports during the five week summer program. We will use the Chadwick soccer field, gym, and upper baseball field for the respective sports. Summer camp is the time to be active and smile and that is what we will provide at Hilltop Sports.

Summer Program General Information

Welcome | Chadwick Programs | General Information | Registration | Contacts & Dates | Map

Print

Enrollment

To enroll in any program, please visit our website at www.chadwickschool.org/summer, where you can complete registration as well as submit payment. Spaces are not held without payment of the \$200 non-refundable deposit. A separate registration must be completed for each student enrolled. The balance of the tuition and fees due must be received by Friday, May 31st, 2019, to hold the student's program selection. There is no enrollment deadline; however, enrollment is limited in all programs and will be filled on a first-come, first-served basis. Programs and courses have a minimum and maximum enrollment. Chadwick School reserves the right to cancel any class that does not have adequate enrollment.

Refund Policy

Full tuition, less the required enrollment deposit, will be refunded for any withdrawal made before May 31st, 2019. All students who register between May 31st and June 24th must pay all tuition and fees in full at the time of registration. No refunds

will be made for any withdrawal after May 31st, unless there is a waiting list for that program and the withdrawing student's place can be filled. **No refunds will be made after the first day of classes.** There are no exceptions to this policy.

Conduct

All students are expected to behave responsibly and with respect for others and for the campus in general. The usual rules of safety, order, and cooperation are enforced. Specific rules and procedures will be reviewed with each child at the start of summer session. Students who fail to abide by summer program policies will be dismissed. Students who are dismissed for disciplinary reasons will forfeit tuition.

Optional Dining Program

We are pleased to partner with Chadwick's dining services provider, CulinArt, for the summer dining program. For a total cost of \$180, full-day students may pre-register for the daily meal plan. CulinArt's healthy and delicious daily lunch program includes:

- beverage and special meal of the day - alternative lunch options for dietary restrictions - delivery of lunch to each program's designated eating area daily - a special menu for vegetarians.

Arts Unlimited students have the option of choosing the pre-purchased meal plan, or may purchase with cash a la carte items such as deli sandwiches, snacks, and even whole-wheat pizza in the walk-in café during lunch day of the week. Enrollment in the meal plan is available in the registration module. For all food-related questions and inquiries, please contact **Mike Adams, Chadwick's Dining Services Manager, at diningcenter@chadwickschool.org**.

Extended Day Care Morning

Chadwick offers before-school supervision for summer program participants from 7:30 a.m. to 8:45 a.m. Parents may pre-enroll their child for the five-week term at a charge of \$200. All other

Summer Program General Information

Bus Service Schedule

LOCATIONS	DEPARTURE	ARRIVAL	ROUNDTrip	ONE WAY
Manhattan Beach 17th St. & N. Poinsetta	8:15 a.m.	3:45 p.m.	\$400	\$200
Hermosa Beach 2515 Valley Drive	8:15 a.m.	3:50 p.m.	\$400	\$200
Redondo Beach Riviera Village	8:30 a.m.	3:30 p.m.	\$360	\$180

children arriving on campus before 8:45 a.m. must be dropped off at the extended day care center in the Village playground, and will be charged \$10 per morning. Extended day care fees must be paid on an as-used basis, directly to the extended day care director. All charges must be paid by Friday of each week. Children may not be left unattended elsewhere on campus before 8:45 a.m.

Afternoon

Extended day care for students in all programs is available from 3 p.m. until 6 p.m. The charge for this service is \$10 per hour and is payable on an as-used basis directly to the extended day care director. All charges must be paid by Friday of each week. Alternatively, parents may pre-enroll their child for the five-week term at a charge of \$400. Parents of students left on campus after 3:15 p.m. will be subject to an extended day charge. After 3:15 p.m., children may be picked up at the extended day care room in the Village School. *Please note that parents of students who are not picked up promptly at 6 p.m.*

*are charged an additional \$5 for every minute after 6 p.m. **The extended day phone number is (310) 541-6763, ext. 4077.***

Carpool, Traffic and Parking Information

The school's Conditional Use Permit requires the school to monitor and control traffic throughout the year during the weekday morning and afternoon peak periods. The school is required to take whatever measures may be necessary to limit school-related traffic to levels below baseline traffic counts, which have been formally established for the morning and afternoon. In this regard, parents and students who drive to the school are **strongly encouraged to carpool**. To facilitate the ability to find carpool partners, the school may release names, addresses and phone numbers of enrolled families to those who are seeking such a partner. Parents and students are also required to obey the parking restrictions imposed to expedite pedestrian and traffic flow on campus.

Independence Day Holiday

Thursday, July 4th and Friday, July 5th will be observed for Independence Day. There will not be any programs on these days.

Last Day Early Dismissal

All summer programs end at **Noon on Friday, July 26th.**

Bus Service

Bus service will be in operation during the summer, and is available at an extra charge to all program participants. The bus will transport students to and from the Manhattan Beach, Hermosa Beach, and Redondo Beach areas. Please refer to the box above for drop-off and pickup times and locations, as well as round-trip and one-way fares for the entire five-week period. *Please note: Implementation of bus service requires adequate ridership.*
