2022 Chadwick Summer Programs

Whether you're looking for academic enrichment, artistic inspiration, athletic instruction, or a fun day-camp experience for your child filled with laughter and friends, we are sure you'll find what you're looking for at Chadwick School. Our lush, beautiful campus, top-level facilities, and outstanding staff provide a stimulating and safe environment where all children have the opportunity to grow and discover. With an amazing variety of courses and programs, there is something for every child at Chadwick Summer Programs.

Our enthusiastic team of instructors and course leaders is looking forward to giving your children a fun and memorable experience at Chadwick School this summer.

Our goal is to provide the Chadwick Summer experience that you have come to expect and love in the safest way possible. Thanks to our stellar summer leadership team, we have devised the most comprehensive, creative, and thoughtful programming considering the ever-changing county guidelines. Be assured that we will provide a Chadwick Summer experience that is safe, enriching, and fun!

It's going to be an amazing summer and we look forward to sharing it with you!

Chadwick Minis Overview

The Chadwick Minis program is designed to give 4- and 5-year-olds a positive early learning experience in relaxed and pleasant surroundings. We aim to create a stimulating, diverse, and supportive environment where students interact with mutual respect and trust.

Half Day

Hours: 9:00 a.m. – Noon

Fee: \$2,000.⁰⁰

Full Day

Hours: 9:00 a.m. – 3:00 p.m.

Fee: \$2,800.⁰⁰

NOTES FOR PARENTS

We offer groups and classes divided by age groups. Simply indicate your child's age group when you register. Please provide a healthy lunch, snack, and a refillable water bottle for your child every day. Touchless water refill stations are available in multiple locations in the Minis area. Fees are for the full 5-week summer session.

Amanda Hartigan

Chadwick Minis Morning Activities

Our mornings begin with a “welcome,” followed by calendar, songs, and stories. The children then cycle through the following camp activities in small groups.

Centers

Centers are theme-related activities led by a credentialed teacher or an assistant teacher. Indoor centers include structured play, science exploration, math games, and reading and writing skill development. Outdoor centers on the playground encourage fun while developing motor skills through games, rhythm and movement.

Art

Art lessons in our studio introduce students to basic art media such as paint, watercolor, and pastels, using a wide variety of materials. Projects allow for creative expression and growth.

Music

Music class fosters children's love for music by inviting Chadwick Minis to play simple instruments, and participate in dance and movement activities.

Swim / Physical Education

During registration, you will have the option to sign your child up for swimming OR for physical education classes:

Swim

Chadwick Minis enjoy swim time two to three times a week. Our goal is to help children feel safe and have fun in the water. Swim instructors give all children a swim test to determine their level of comfort in the water and then customize instruction based on their needs. The adult to-student ratio is one-to-two, and lifeguards monitor the pool at all swim times. [All lifeguards are Red Cross certified, which includes lifesaving, CPR, and first aid.]

Physical Education

Chadwick Minis enjoy organized physical education activities two to three times per week out on our spacious play space. We will work on large motor skills, coordination, balance, and body control. Our focus is on cooperation, healthy competition, and team building skills.

**Due to staffing, you will not be able to switch back and forth between swim and PE.*

Chadwick Minis Afternoon Activities

The following activities apply only to those students enrolled in the full-day program.

Lunch

Children eat lunch together with the Chadwick Minis staff. Please provide a healthy lunch and drink for your child or pre-order a lunch through the school's dining services. For more information about the dining program, see the "General Information" section.

Story/Rest Time

Time to take a break! During this quiet part of the afternoon children are encouraged to read, do puzzles, play quiet games and enjoy a little "down time." An afternoon snack is provided.

Group Time

Students will enjoy a different activity every afternoon of the week. Please download the schedule to learn more.

Camp Chadwick Overview [Afternoon Program Noon – 3:00 p.m.]

Welcome to Camp Chadwick, where learning, exercising, and fun are integrated to provide an optimal summer experience! Classes such as Swimming, Art and Making, Games, Yoga, Crafts, and Sports teach campers to be creative, work together, and enjoy being children. It's going to be another fantastic summer here at Camp Chadwick!

Half Day

Hours: Noon – 3:00 p.m.

Fee: \$1,120.⁰⁰

NOTES FOR PARENTS

Students may participate in Camp Chadwick as a stand-alone program or combine it with the morning sessions of Chadwick Prep or Hilltop Sports. Fees are for the full 5-week summer session.

Camp Chadwick Activities

Art & Making

This class will allow your student to explore their creative side while also challenging themselves through the design process! We will work with a variety of materials to make unique works of art and explore design and engineering through "making activities" using found objects as we observe nature outside, inspiring our artwork. These artists will study the Elements of Art, exposing our minds to different types and styles of Art and Making

Little Crafters

Let's get our Creativity on! We'll be keeping little hands busy and minds thinking creatively while they create a variety of crafts like lanyards, popsicle stick structures, yarn projects, tissue flowers, and more.

Games - Game on!

Campers use logic, reasoning, social skills, and critical thinking to play strategic board games. They will discover how game developers create board games in order to design their very own. Campers choose a theme, establish rules, directions and even design the board and game pieces. Then...we play!

Music & Movement

Let's get moving! Campers will explore music and movement from around the world connecting their bodies and their minds with rhythms and steps from a variety of cultures.

Camp Chadwick

Grades 1-4 (as of Fall, 2022)

[Welcome](#) | [Chadwick Programs](#) | [General Information & FAQs](#) | [Registration](#) | [Contacts & Dates](#) | [Map](#)

[Camp Chadwick Overview](#)

[Camp Chadwick Activities: Page 1](#)

[Camp Chadwick Activities: Page 2](#)

[Download Schedule](#) 

Sports

Campers participate in both gym and field sports. In the gym, campers play activities like basketball, handball, and jump rope. On the field, campers will participate in activities like soccer, obstacle courses, and more.

Swimming

Chadwick's Aquatics Program offers children a range of basic swim skills while adhering to strict safety rules. An initial assessment matches each camper to his/her appropriate swim level. [All lifeguards and swim instructors are Red Cross certified, which includes lifesaving, CPR, and first aid.]

Yoga & Mindfulness

We'll stretch and shape into objects like trees and warriors while also learning to quiet our minds and calm anxiety with things like calm jars and slime.

Fun Friday Assemblies

Each Friday, campers will participate in a fun Friday activity. This summer those will include a storytelling presentation, an interactive bubble show, game day, and more.

Chadwick Prep Classes

LANGUAGE ARTS

Creative Writing [GRADES 1 & 2]

Learning to write is one of the most important skills children can develop. Please join us as we learn to express ourselves through writing. Students will write short stories while exploring elaboration strategies such as dialogue and descriptive language.

Get Your Motor Running [GRADE 2]

Vroom, vroom! Students will strengthen their fine motor skills and reading in this class. Crafting stories in Writer's Workshop will strengthen students' writing and editing skills. Reading activities will focus on expanding vocabulary and comprehension. Students will be assessed during the first week and leveled accordingly.

The Bakery [GRADES 2 & 3]

This thematic class is designed to help students understand and integrate the complexities of starting and running a bakery business. This course will integrate language arts, science, math, and visual arts skills. Reading and writing are key components in this class.

Into the Blue [GRADES 3 & 4]

Have you ever wondered what lurks below the surface of our oceans? Uncover the great mysteries of the ocean in this class. Students will explore different ocean environments and the creatures that live there. Through a mix of science and language arts, students will learn about the environment that occupies most of our planet.

Rainforest Rally [GRADES 3 & 4]

Discover the many plants and animals that call the rainforest their home. Students will read and write short stories and reports, strengthening research and language skills. Library and Internet searches will provide plenty of ideas. Students will gain knowledge about the rainforest and share that knowledge with one another. Each child will benefit from the warm and supportive environment.

Smartworks [GRADE 4]

This class will support students who need an extra boost in reading comprehension and inferential meaning in order to prepare them for the next grade level. Process-writing and short story reading is the basis for this class. While learning mechanics, form, and style, students will discover the joy of writing.

Reading & Study Skills [GRADES 4 & 5]

This course is designed to help students improve the way they read and study academic material. Maximizing students' abilities to comprehend and retain what they read is emphasized, as are note- and test-taking skills. Students learn a variety of techniques that they will be able to utilize in their classes next fall.

Wizard School [GRADES 3 & 5]

Calling all fans of potions and spells! Come as we embark on a journey that is the perfect mixture of wizardly arts and creativity. Come join us as we learn all about the stories and characters of popular wizard series through interactive activities like wizardly wand and potion making, spell writing, book trivia and more! These imaginative and magical activities will be tons of wizardly fun, all-the-while allowing you to unleash your creativity and build critical thinking and literacy skills.

Become a Reporter

[GRADES 4 & 5]

Learning to gather information, and present findings, students will learn to organize skills into debates, and present information to peers. Students will combine research, creativity, interview skills, and language arts skills to create an original newspaper for summer school. Working collaboratively, students research topics, write articles, interview people and take photos, documenting their work in the newspaper for summer school. In so doing, students learn to organize creative ideas into informative and editorial writings, as well as practice and develop public speaking skills.

MATH

One Shoe, Two Shoe

[GRADE 1]

Students will dazzle their friends, thrill their parents, and amaze their teachers next year when they return to class with a whole new “bag of tricks” for solving math problems. Using manipulatives, games, and a variety of “tricks,” students will review addition and subtraction of one and two digit numbers, count money, tell time, and explore geometry.

Tasty Choices

[GRADES 1 & 2]

With all of the choices in our refrigerators and pantries these days (not to mention in stores and restaurants!), it is becoming ever more important to help our kids understand the foods they eat and how to make them. This course will teach students not only how to make healthy choices, but also how to make several easy, delicious, and nutritious treats themselves, all while incorporating measurements of math!

Zany, Brainy Math

[GRADE 2]

In this hands-on class, students learn about problem solving, estimating, critical thinking, and logic through the use of hands-on activities and strategy games. Additionally, students will strengthen their addition and subtraction skills with two and three digit numbers in several fun-filled ways. They will create art projects using simple geometry, fractions, and arrays. Writing will be emphasized as students learn problem-solving strategies.

Monster Math

[GRADE 3]

Using manipulatives, games, iPads, and creativity, students will review addition, subtraction, multiplication, and division concepts. Number theory, geometry, and problem-solving projects will help students stretch their minds.

Grow Math Mindset

[GRADE 4]

While using manipulatives, students will develop their math problem-solving abilities. Through both individual and cooperative small group strategies, this course presents various problem situations that will lead them to use multiple methods and provide opportunities for intuitive and inductive reasoning, mathematical discovery, creativity, and originality.

Grow Your Own Business

[GRADE 5]

In this class, students will grow their entrepreneurial spirit through critical and creative thinking. The students will create their own businesses by raising funds, designing an original product, pitching to investors, and finally selling their product to an authentic audience. Throughout this process, they will learn about financial responsibility and understand the value of teamwork. Don't miss out on learning how to be an entrepreneur of your own company!

Real Life Math

[GRADE 4 & 5]

Those math problems got you down? Don't fret! Come join our real fun math class where students will reimagine their word problem as real life story mysteries in need of solving! In this session, students will work collaboratively and independently to understand the story that is being told in a wide range of story problems. They will apply their math skills to solve one step, two step and multi-step word problems building math confidence along the way. They will review and gain a variety of strategies to decompose fun stories and get to the heart of the problem!

SCIENCE

Mad Scientists

[GRADES 1 & 2]

Chemistry exists in our everyday lives! This hands-on class will include growing crystals, doing lab experiments, and creating tasty dishes. Inventive projects and science-based art will engage young learners.

Creepy Crawlies

[GRADES 1 & 2]

Bring your nets and magnifying glasses on this tour of creepy crawlies around us. Students will plant a garden and explore our campus and canyon. Scientific theory, observation, recording data, making hypotheses, and testing them will keep young entomologists busy.

Gizmos, Gadgets & Goop

[GRADES 3 & 4]

Future scientists will perform spectacular experiments and practice recording and reflecting on their observations in this hands-on class. A variety of science-based activities will keep these young scientists busy. Students will explore chemistry and natural science, as well as concocting lotions, potions, and goop!

Harry Potter Potions [GRADES 3 & 4]

Head to Diagon Alley and grab your copy of 'Magical Drafts and Potions' for our very own Harry Potter Potions Class! This science-based class will brew up a variety of potions, poisons, and even some edible spells using household staples. Save your Unicorn Horns, cauldrons, and make sure to stir clockwise. Robes, wands, and a spirit full of magic encouraged for ride using wizarding, wandling, and casting spells and potions!

Ingenious Inventors [GRADES 4 & 5]

The exciting world of experiments begins with students designing their own collection or invention. The inventive projects and hands-on experiences engage these learners as they develop a model, state its purpose, and create advertising to sell it. Young scientists will keep a log of their spectacular work. Perfect for innovative minds!

3, 2, 1 ... Blast Off! [GRADE 5]

Rockets are remarkable creations of human ingenuity. Have you ever wondered what it is that makes a rocket fly? Students in this course will demonstrate Newton's Laws of Motion, construct a rocket-propelled vehicle, design bottle rockets, and experiment with many other fun and interesting things. How far will your rocket fly?

Einstein's Workshop [GRADE 5]

Are you fascinated with science? This hands-on course involves physical, biological, and chemical projects in our fully-equipped Science Lab. Children will be guided as they build electronic gadgets, conduct experiments, and practice the scientific method. Findings will be shared in a variety of ways including graphs, posters, and journaling.

ART/MISCELLANEOUS

Artistic Fingers [GRADES 1 & 2]

Get ready for a fun and an artistic summer! Students will experience a range of media from water color painting and combining paint with other materials to make fun and exciting collages. We will include 3-D art projects such as clay building, colourful mask making and other 3-D projects using found materials.

Animal Lovers

[GRADES 1 & 2, 3 & 4]

Let's learn fun and important facts about animals. Find out about wild animals' habitats, how to take care of our pets, and much more. We will go on a virtual tour with our own private guide. You will have the opportunity to ask animal experts like vets how to take good care of your pet or what other things animal lovers are doing to save and protect our endangered wildlife.

Exploring Hispanoamerica

[GRADES 3 & 4]

In this hands-on class we will make delicious food, we will listen to different kinds of music and we will make fun crafts. This class will transport you to Hispanoamerican culture. Learn interesting facts about different countries and learn Spanish words. Native hispanics will join us each week and you will have the opportunity to ask them anything you want to know about a Hispanic country that you would like to visit in the future.

Let's Get 3D!

[GRADES 3 & 4]

Students will learn creative ways to use a variety of art materials by working with three dimensional materials such as clay, paper, cardboard construction as well as found objects. Imagination meets critical thinking in this course for the creative mind.

Maker Space

[GRADES 4 & 5]

Our imagination is our limit as we build, sculpt, and create with this everyday miracle!! It's recyclable, biodegradable, reusable, sturdy, and practically free! Most importantly building with cardboard require hands-on, real life science, technology, engineering, art and math to be successful! Come join us for some cardboard fun as we create mnemonic devices, candy machines, old fashion games and usable stationary! Students should be confident in their ability to cut cardboard using a Canary cardboard saw and use a hot glue gun.

COMPUTER

Code Crashers

[GRADES 2 & 3]

Are you interested in coding? Students in this class learn the basics of coding, a beginning step in preparing for a technology-fueled future. Coding is an invaluable 21st-century skill. Even kids who don't go on to become computer scientists will benefit from learning to speak and understand the language of coding.

Computer Wizards

[GRADES 2, 3, 4 & 5]

Students become competent at keyboarding with daily practice in this class. Students will increase speed and accuracy while monitoring their progress. Additionally, students will use their skills to produce posters, graphs, and other projects.

Lego Robotix

[GRADES 4 & 5]

Join the Lego Robotix tech team and create robots that you control. Throughout the class, you will learn how machines work and have the opportunity to design your own robots. Using the computer, you can create a program that instructs your robot to move. We will explore basic scientific principles, mathematical concepts and procedures, and introductory programming skills.

Gamestoppers & Animators

[GRADES 4 & 5]

In this class students learn Scratch, a visual computer programming language for kids that makes it easy to create and share animations and games of all kinds. They will explore key math and computational ideas using creativity, logic, and collaboration skills. Students well-versed in Scratch can independently explore other languages like Javascript and Python.

Chadwick Prep Plus+ Overview

Chadwick Prep Plus immerses students ranging from 11 through 16 years of age in an environment that encourages advanced thinking, creative problem solving, and a lifelong love of learning. Students will explore their potential as inventors, detectives, and strategists. Interdisciplinary classes will strengthen students' talents in reading, writing, math, and science, while pushing them to employ these skills in new and imaginative ways.

Prep Plus Schedule:

| | |
|------------------------------|--------------------|
| Hours: 9:00 a.m. – 9:50 a.m. | Enrichment Courses |
| 10:00 a.m. – 12:00 p.m. | Academic Courses |
| 1:00 p.m. – 3:00 p.m. | Academic Courses |

Enrichment Course (per course)

Fee: \$560.⁰⁰

Academic Course (per course)

Fee: \$1,120.⁰⁰

Full day (1 enrichment course, plus 2 academic courses)

Fee: \$2,800.⁰⁰

NOTES FOR PARENTS

Prep Plus Open House – Thursday, July 21st 9:00 a.m. – 10:00 a.m.
Chadwick Prep Plus courses may be combined with any other age appropriate Chadwick Summer Programs. Fees are for the full 5-week session.

Grade levels are based on a child's grade they are entering in fall.

ENRICHMENT COURSES (Enrichment Courses meet from 9:00 a.m. – 9:50 a.m.)

Computer Coding [GRADES 6 & 7]

In our digital age, computer programming is the “it” thing to do. Facebook has an app. Twitter has an app. Snapchat has an app. Those apps and more were all created by someone who learned computer programming. Scratch is a great way to learn the fundamental concepts of programming languages. This class will explore creating games, animations, stories, and art using computer learning tools that teach programming skills.

Debate [GRADES 6, 7, 8 & 9]

Learn the art of verbal combat! Students will learn to construct persuasive positions, defend against and attack each other’s arguments, and cross-examine effectively. Students will debate a variety of age and experience appropriate topics, form teams, and pit themselves against their peers. Debate topics may include school uniforms, private/public school, and school food. By the end of the course, students will be comfortable speaking at the podium and have a good idea of how to structure a thoughtful argument, how to refute a statement you don’t agree with, and how to get that last word in.

ENRICHMENT COURSES (Enrichment Courses meet from 9:00 a.m. – 9:50 a.m.)

World of Web Design

[GRADES 8, 9 & 10]

The world of software design is booming! In this beginning course, students will cover the software creation process. Students will learn oriented design principles and programming fundamentals as they plan their projects. Java will be the primary language to teach and understand data types and methods. Students will work individually and in small groups to explore new concepts. No previous programming experience is required.

Public Speaking [GRADES 7, 8, 9 & 10]

In this class, students will learn to express themselves with greater confidence and clarity in a fun summer environment. The course is designed to help develop critical-thinking skills. Students will have the opportunity to present both impromptu and prepared speeches on their chosen topics. Speeches include biographical introductions and informative “how” explanations. Students will also become familiar with the basics of good public speaking by viewing and critiquing famous speeches.

Grades 6–11 (as of Fall, 2022)

[Welcome](#) | [Chadwick Programs](#) | [General Information & FAQs](#) | [Registration](#) | [Contacts & Dates](#) | [Map](#)
[Chadwick Prep Plus: Overview](#)[Chadwick Prep Plus Classes: Page 1](#)[Chadwick Prep Plus Classes: Page 2](#)[Chadwick Prep Plus Classes: Page 3](#)[Chadwick Prep Plus Classes: Page 4](#)[Chadwick Prep Plus Classes: Page 5](#)[Chadwick Prep Plus Classes: Page 6](#)[Chadwick Prep Plus Classes: Page 7](#)[Download Schedule](#) **ENRICHMENT COURSES (Enrichment Courses meet from 9:00 a.m. – 9:50 a.m.)****Robotics VEX-IQ [GRADES 6, 7, & 8]**

Using robots, students will cover the fundamentals of problem-solving, program design, algorithms, and programming using a high-level language. A robot is an embedded system of software and hardware. Programming and building robots apply science, technology, engineering, and math concepts. This course introduces the fundamental concepts of programming.

Study Skills [GRADES 7, 8 & 9]

In this course, students develop more effective systems of organization to improve reading comprehension and listen critically. Students learn to use their stronger skills to boost their weaker skills and do group work effectively. Students will also study the different forms of note-taking and analysis and practice how best to study for assessments.

Intro to Financial Market Trading**[GRADES 7, 8, 9 & 10]**

This course will examine the financial markets, particularly the FOREX market on how financial traders create wealth trading using the FOREX Market. Students will learn technical analysis, trends, Fibonacci Sequences, resistance, gaps, support, and supply and demand. They will learn how the news affects the markets as well. Students will use a demo account and make live trades in the class. In the demo account, students will understand how to use Japanese candlesticks and determine a bull or bear market. In addition, students will learn financial terminology. Students will also learn the most valuable lessons: risk-to-reward ratio and money management.

This course will also be offered virtually on Zoom from 8:00am-8:50am.

ACADEMIC COURSES (Meet from 10:00 a.m. – 12:00 p.m. or 1:00 p.m. – 3:00 p.m.)

English Essentials I [GRADES 6 & 7]

English Essentials I is designed to enhance fundamental reading and writing skills by closely reading short stories and poetry. Students will complete text-based grammar exercises. The writing workshop will focus on the body paragraph as the basic unit of the analytical essay. While grammar, reading, and composition remain at the heart of the course, students will also learn to develop original arguments based on their interpretive discoveries.

English Essentials II

[GRADES 8, 9 & 10]

This course reviews the fundamentals of reading, composition, and grammar basics. Whereas English Essentials I focuses on fundamental writing concepts, this class places greater focus on the multi-paragraph analytical essay. All writing assignments will encourage students to develop their critical reading skills while close-reading short stories and poetry. Students will be encouraged to formulate original arguments based on their interpretive discoveries.

ACADEMIC COURSES (Meet from 10:00 a.m – 12:00 p.m. or 1:00 p.m. – 3:00 p.m.)

Pre-Algebra

[GRADES 6 & 7]

This course will review and complete the study of whole numbers, decimals, and fractions. Concepts of algebra, discrete mathematics, functions and patterns, geometry, logic, numbers, probability and statistics are included. Attention is given to manipulating proportional relationships, multiple representations, patterns and generalizations, real-world applications, and problem-solving strategies.

Readiness for Algebra I

[GRADES 8 & 9]

This course is designed for anyone getting ready to enter an algebra course. Students will work on big ideas of algebraic thinking that students can develop before they enter algebra. The ideas explored are representation, proportional reasoning, variable, function, and inductive/ deductive reasoning. These concepts are introduced through classroom activities and partner projects, such as poster creation and presentations. Students will also review and strengthen pre-algebra skills as they study the big ideas.

ACADEMIC COURSES (Meet from 10:00 a.m – 12:00 p.m. or 1:00 p.m. – 3:00 p.m.)

Readiness for Algebra II

[GRADES 10 & 11]

This course will review the Algebra I skills essential to success in subsequent mathematics courses. Topics will include: The Real Number System and its properties, Solving Linear Equations, Solving Multi-step and Compound Linear Inequalities, Solving Quadratic Equations by Factoring, Solving Systems of Equations, Laws of Exponents, Monomial and Polynomial Expressions, Rational Expressions, Intro to Functions, Graphing Problem Solving Approaches, and Numeracy.

Readiness for Geometry

[GRADES 9 & 10]

This class covers almost a full year of high school geometry. Students will concentrate on studying Euclidean Geometry while maintaining and enhancing algebraic skills. Students will learn the ideas, concepts, and theorems of this branch of mathematics as the early mathematicians developed them. Students will also extend their reasoning skills by forming geometric arguments and will learn how to apply these principles to solve problems in various situations.

Mini Golf Design [GRADES 6, 7 & 8]

Fore! Off the bumper, over the drawbridge, and into the hole. This course utilizes woodworking skills such as measuring, cutting, hammering, sanding, and much more while using your imagination to design a mini-golf course. Each hole can have a different theme with varying degrees of difficulty, using sustainable resources to ignite your imagination. Students will work collaboratively to transform the Chadwick School course into a course that would make Tiger Woods proud!

Arts Unlimited Overview

Arts Unlimited was founded more than 35 years ago to foster arts, creativity, and wellbeing during the summer. From the beginning, we have been highly committed to the belief that each child has artistic talents. Nurtured by high-quality mentoring, coaching, and teaching, young people can spend 5 weeks in the summer attaining their amazing potential.

Full Day / 5 Classes

Hours: 9:00 a.m. – 3:00 p.m.
Fee: \$2,800.⁰⁰

Half Day AM / 3 Classes

Hours: 9:00 a.m. – Noon
Fee: \$1,680.⁰⁰

Half Day PM / 2 Classes

Hours: 1:05 p.m. – 3:00 p.m.
Fee: \$1,120.⁰⁰

Single Class / Add-On

Fee: \$560.⁰⁰

NOTES FOR PARENTS

Fees are for the full 5-week summer session.

Students may participate in Arts Unlimited as a stand-alone program or combine it with Chadwick Prep, Prep Plus or Hilltop Sports.

Arts Unlimited

AU Weekly

[AGES 9-14]

If students enjoy writing, interviewing people, and taking pictures, this is the class for them. Budding journalists get hands-on experience as the news crew that publishes the Arts Unlimited weekly newspaper, in print mode!

Cartooning

[AGES 9-14]

From idea, to outline, to storyboard, to final drawing in panels, students learn the basics of this art form—inventing and creating their own cartoon world. This class deals with printed cartoons, not animation. Students' work will be published in AU Weekly, the student newspaper.

Ceramics - Handbuilding **[AGES 9-14]**

Students will experience all forms of hand-building with clay. Slab, coil, attachment methods, and use of clay tools will be presented. Students will create a variety of objects, both useful and artistic.

Chess

[AGES 9-14]

In this instruction class, students will learn this game of strategy or advance their expertise with the one and only "Chessman." All levels welcomed and challenged.

Creative Writing [AGES 9-14]

This class will feature the techniques and mechanics of creative writing. Poetry will be presented for those who desire to explore this genre of writing. Students will do writing “warmups,” construct stories and keep journals of their work. There will be performance opportunities for those who wish to share!

Dance [AGES 9-14]

A variety of dances will be presented in this class. Students can learn new tricks and build on their own unique styles.

Digital Filmmaking [AGES 9-14]

Have you ever wanted to make a movie? Here is your chance to learn the art of cinematic storytelling through the basics of storyboard development, scriptwriting, directing, cinematography, and editing using Premier Pro and AfterEffects. Each student will receive a thumb drive containing a copy of their work.

Drawing [AGES 9-14]

The basics of drawing will be presented for both beginners and those wishing to extend knowledge and skill. A variety of drawing tools will be used and students will be able to experiment as well as learn traditional drawing techniques.

Fencing I [AGES 9-11]

The basic beginning techniques of fencing are taught to those new to this storied art. Students have the opportunity to fence with classmates. Equipment will be provided.

Fencing 2 [AGES 12-14]

This class expands upon skills acquired in Fencing I. Students have the opportunity to fence with classmates. Please note: This class is for students who have completed Fencing I or the equivalent. If it is determined that a student does not have adequate prior experience, he or she will be reassigned. Equipment will be provided.

Fimo Craft [AGES 9-14]

The magic art of Fimo, a multi-colorful type of clay, will be used to create unique jewelry and other decorative items. A \$30 materials fee will be charged for this course.

Fused Glass [AGES 9-14]

This intermediate class extends the skills previously presented at the beginning level. The increasingly popular art uses heat—in a glass kiln—to form glass into a variety of ornaments such as tiles, flowers, jewelry, and animals. This level requires previous experience. A \$30 materials fee will be charged for this course.

Garage Band [AGES 9-14]

Compose your own music with the help of a real, in-person, accomplished musician and the app that changed the music world.

Improv [AGES 9-14]

Theater games, scene performances, and character development are part of the fun of improv. Students learn the art of theatrical expression and the acting tools used to achieve it in this workshop class.

Junior Chefs

[AGES 9-14]

Student chefs will learn cooking basics, preparing everything from appetizers and entrees to desserts. A variety of recipes will be prepared and sampled, featuring fresh and healthy food. Within the classes, students will be divided into cohort groups depending on their food prep experience. **Please note: We are unable to accommodate food allergies in this class.** The junior chefs will publish a cookbook of recipes used in the class and serve selected food at Open House on July 23. There is an additional materials fee of \$50 for this course. Junior Chefs last two periods and students can sign up for either class period 2-3 (10:00 a.m.–11:50 a.m.) or class period 4-5 (1:00 p.m.–2:50 p.m.).

as wiring, stringing, and a variety of adhesive methods will be used to create three-dimensional art.

Musical

[AGES 9-14]

AU campers are invited to come learn song, dancampers are invited to come learn song, dance, and acting as AU 2022 presents "Mary Poppins!" The performance will be on Thursday, July 21 at 7:00 p.m. The play will be collaborative, featuring the unique talents of each student. The directors, producer, and choreographer will cast the show after the first day of class. **All cast members, and their families, must agree, in principle, to attend each class, periods 1-3 each day, throughout the five weeks, except in cases of illness.** A video of the show will be filmed and made available as a download. There is an additional costume fee of \$50 for this course.

"Junque" Art

[AGES 9-14]

Students will scavenge and collect an array of items (beads, buttons, tiles, glass, metal - to name a few) to be turned into mixed media masterpieces. Assembly techniques as well

Painting

[AGES 9-14]

Students will be met in this class at whatever level they achieved in the past. A variety of painting materials and tools will be presented and students will create a body of work for their portfolios.

Stained Glass

[AGES 12-14]

The basics of stained glass art will be presented. Students will learn to cut and assemble a variety of colors and types of glass and will do small projects such as hanging window pieces and ornaments of all types. A \$30 materials fee will be charged for this course.

Stitch This!

[AGES 9-14]

In this class Nola will teach students how to create beautiful and unique artwork using various types of threads. The class will cover all basic stitches from the beginner level. Projects include (but are not limited to): Hand-embroidered magnets and patches, embroidery hoop designs, and embellishments.

Swimming

[AGES 9-14]

Swimmers learn water safety and increase water skills while also enjoying pool games and free swims. **Please note: Beginning-level water safety skills (ability to dog-paddle) are required for enrollment.** This class does not teach swim instruction. All lifeguards are Red Cross certified.

Upcycle Fashion

[AGES 9-14]

Grab some old clothes and other items, from home and thrift stores, and use them to design your own fashion. Hand-sewing, embellishing, and enhancing will be the order of the day with beads, baubles, and paint.

Yarn Magic

[AGES 9-14]

Knit with Nola! Enjoy knitting this summer. Beginners and more experienced knitters will learn and increase skill levels in this course.

[Hilltop Sports Overview](#)

[Hilltop Sports Camp](#)

Hilltop Sports Overview

Hilltop Sports offers campers the opportunity to improve their skills in a positive and fun environment. The morning session will be a dedicated basketball camp, played each day in the climate-controlled gym. The afternoon session will offer basketball and soccer. Campers will have the opportunity to play both during the session or focus on one sport the entire summer.

Hilltop Sports Day Camp

Session 1: Basketball Camp – 9:00 a.m. – Noon

Session 2: Soccer and/or Basketball – Noon – 3:00 p.m.

Fees:

Weekly Rate \$280.⁰⁰/session

All 5 weeks \$1,400.⁰⁰/session

NOTES FOR PARENTS

Campers must provide their own appropriate attire for each sport, including cleats, gym appropriate shoes, and a refillable water bottle.

Stephen Norberg

Hilltop Sports Director

Chadwick Physical Education Teacher

[Hilltop Sports Overview](#)

[Hilltop Sports Camp](#)

Hilltop Sports

Session 1 – Basketball

9:00 a.m. – Noon

The morning session (9:00 a.m. – Noon) will be focused only on basketball. It will include skills and drills along with games. We will be in the Chadwick gym the entire time which is a first-class facility with climate control to keep it cool during the summer months. We will have former college basketball players as guest speakers throughout the summer. This will allow campers the opportunity to hear about their journey in sports and learn skills from them. All skill levels are welcome.

Session 2 – Basketball and/or Soccer

Noon – 3:00 p.m.

The afternoon session (Noon – 3:00 p.m.) will feature soccer and basketball. Campers will have the option of choosing which sport they want to play each day. We will use the Chadwick soccer field, gym, and upper field for the respective sports. Summer camp is the time to be active and to enjoy sports with our friends and teammates.

Summer Program General Information

[Welcome](#) | [Chadwick Programs](#) | [General Information & FAQs](#) | [Registration](#) | [Contacts & Dates](#) | [Map](#)

[Print](#)

Enrollment

To enroll in any program, please visit our website at www.chadwickschool.org/summer, where you can complete registration as well as submit payment. Spaces are not held without payment of the \$200 non-refundable deposit. A separate registration must be completed for each student enrolled. The balance of the tuition and fees due must be received by Friday, May 27th, 2022, to hold the student's program selection. There is no enrollment deadline; however, enrollment is limited in all programs and will be filled on a first-come, first-served basis. Programs and courses have a minimum and maximum enrollment. Chadwick School reserves the right to cancel any class that does not have adequate enrollment.

Refund Policy

Full tuition, less the required enrollment deposit, will be refunded for any withdrawal made before May 27th, 2022. All students who register between May 27th and June 21st must pay all tuition and fees in full at the time of registration. No refunds

will be made for any withdrawal after May 27th, unless there is a waiting list for that program and the withdrawing student's place can be filled. **No refunds will be made after the first day of classes.** There are no exceptions to this policy.

Conduct

All students are expected to behave responsibly and with respect for others and for the campus in general. The usual rules of safety, order, and cooperation are enforced. Specific rules and procedures will be reviewed with each child at the start of summer session. Students who fail to abide by summer program policies will be dismissed. Students who are dismissed for disciplinary reasons will forfeit tuition.

Dining Program

We are currently working on providing dining services during Chadwick Summer Programs 2022. However, we do not have specific details at this time. We will communicate dining service options as soon as they become available.

Extended Day Care

Morning

Chadwick offers before-school supervision for summer program participants from 7:30 a.m. to 8:45 a.m. Parents may pre-enroll their child for the five-week term at a charge of \$200. All other children arriving on campus before 8:45 a.m. must be dropped off at the extended day care center in the Village playground, and will be charged \$10 per morning. Extended day care fees must be paid on an as-used basis, directly to the extended day care director. All charges must be paid by Friday of each week. ***Children may not be left unattended elsewhere on campus before 8:45 a.m.***

Summer Program General Information

Bus Service Schedule

| LOCATIONS | DEPARTURE | ARRIVAL | ROUNDTrip | ONE WAY |
|---|-----------|-----------|-----------|---------|
| Manhattan Beach N.Valley Dr. & Manhattan Beach Blvd. | 8:15 a.m. | 3:45 p.m. | \$450 | \$225 |

Afternoon

Extended day care for students in all programs is available from 3 p.m. until 5:30 p.m. The charge for this service is \$10 per hour and is payable on an as-used basis directly to the extended day care director. All charges must be paid by Friday of each week. Alternatively, parents may pre-enroll their child for the five-week term at a charge of \$400. Parents of students left on campus after 3:15 p.m. will be subject to an extended day charge. After 3:15 p.m., children may be picked up at the extended day care room in the Village School. *Please note that parents of students who are not picked up promptly at 5:30 p.m. are charged an additional \$5 for every minute after 5:30 p.m. The extended day phone number is (310) 541-6763, ext. 4077.*

Carpool, Traffic and Parking Information

The school's Conditional Use Permit requires the school to monitor and control traffic throughout the year during the weekday morning and afternoon peak periods. The school is required to take whatever measures may be necessary to limit school-related traffic to levels below baseline traffic counts, which have been formally established for the morning and afternoon. In this regard, parents and students who drive to the school are **strongly encouraged to carpool**. To facilitate the ability to find carpool partners, the school may release names, addresses and phone numbers of enrolled families to those who are seeking such a partner. Parents and students are also required to obey the parking restrictions imposed to expedite pedestrian and traffic flow on campus.

Independence Day Holiday

Monday, July 4th will be observed for Independence Day. There will be no programs on this day.

Last Day Early Dismissal

All summer programs end at **Noon on Friday, July 24th.**

Bus Service

Bus service will be in operation during the summer, and is available at an extra charge to all program participants. The bus will transport students to and from the Manhattan Beach, Hermosa Beach, and Redondo Beach areas. Please refer to the box above for drop-off and pickup times and locations, as well as round-trip and one-way fares for the entire five-week period. *Please note: Implementation of bus service requires adequate ridership.*

Frequently Asked Questions

When do Chadwick Summer Programs run?

Chadwick Summer Programs 2022 will run for 5 weeks, from Tuesday, June 21st until Friday, July 22nd at 12:00 noon.

How old do you have to be to sign up for a class?

On the course description page you will find the age or grade level that is appropriate for each program or class. For some academic offerings, students will be evaluated early in the program to assess if they are in the right course and can easily be moved to the proper course.

I love the ability to change classes and pick courses for my child. Is this possible with your in-person summer program?

Yes, hopefully! We will follow all LA County guidelines, which at this point allow us to offer a wide variety of classes and choice for the Summer of 2022.

Can I only take one class, or pick and choose?

You can choose as many or as few courses for your child as you prefer for the Summer of 2022. You are able to pick classes so long as your child meets the age requirements of that particular class and division.

How do I sign up for classes?

Registration for classes will be open to the general public at 8:00 a.m. on Wednesday, March 30th. You can sign up at:

www.chadwickschool.org/summer

Frequently Asked Questions

What has Chadwick implemented to keep our children safe from virus spread?

Chadwick follows safety guidelines based on LA County Department of Health guidelines for Summer Camps. Families will need to fill out a short survey each morning in our SchoolPass app that lets our team know if there has been contact or symptoms. Currently, students are required to wear masks. However, we will continue to follow county guidelines should that change prior to June 21st, 2022. Students will be asked to wash their hands regularly. Students will eat lunch outdoors with proper distancing. Our campus will be cleaned and sanitized throughout the day and in the evenings. Materials will be sanitized as necessary based on exposure and use.

What will happen if someone contracts COVID-19 during Summer Programs?

Should a student, staff, or faculty member contract COVID-19 during Summer Programs, we will be in contact with any who may have been exposed. Students would have to quarantine per the current LA County guidelines. Our safety and risk management team will continue to monitor any such contamination to the campus and will follow the

protocol and guidelines that the county has specified. Please note that the school will not give partial refunds or reimbursements for programs that are shut down.

What if I change my mind and need to cancel my registration?

Please contact us at summerprograms@chadwickschool.org or call the school at 310-377-1543 and we will be happy to assist you. Please note that full refunds will be made for any reason before May 27th, 2022. No refunds will be made for a withdrawal after May 27th, unless there is a waiting list for that program.
